1.

Built in 1834 by William White, the original owner. Present owner is Mr. E. B. Allen and rented to the present occupant, Mr. A. Edie.

No cellar, frame construction with 4" x 4" studs. Roof carried on two 8" x 10" beams 30" above attic floor and crossing at center of house supporting center column 10" x 10". Beams 8" x 7" from each corner and 10" x 6" from each center of outside run to top of column. Half way up rake a 6" x 7" beam divides these triangular spaces and the roof joists are 4" x 4", spaced 3' 0" on center between these. All timber is hand-hewed, roof boards are 19" to 23" wide. Flooring house 4" to 6" width. All trim and base nailed to studs and plaster run to trim - all finish is hand-made.

The chimneys start on beams at attic floor level and perforate roof just back of center line to miss this roof beam construction. No fireplaces on floor, except holes in ceiling of rooms A and C on first floor and E and G on second floor for stove pipes to attic chimney. These pipes utilized as a heating system. All wood painted. The 14' x 20' addition to rear is modern.
